

November 2024

Newsletter

Dear reader,

this is the first newsletter of the AccesS project which kicked off on the 1st of June this year. In this newsletter, we will present the project and its objectives. We invite you to continue reading our biannual newsletters to stay informed about our ongoing work, latest developments, and notable achievements. Each issue offers valuable insights and updates on all the relevant news and milestones we've reached. Stay tuned!

Enhancing Accessibility and Sustainability in Smart Cities and Smart Buildings: The Universal Accessibility Suite Initiative

About the project

AccesS aims to create barrier-free environments, facilitate smooth mobility, and enable equal access to essential services and facilities by leveraging advanced technologies and innovative solutions. Furthermore, AccesS aspires to deliver innovations supporting the inclusive, adaptive, and sustainable operation of the built environment.

Follow our website and social media accounts and join us on the journey of revolutionizing the accessibility and inclusivity of smart buildings and smart cities!

Deliverables

D1.1

Evaluating Technologies and Market Dynamics for Accessibility, Mobility and Energy Efficiency

By [CETEM](#)

Evaluating Technologies and Market Dynamics for Accessibility, Mobility and Energy Efficiency' aims to provide a state-of-the-art overview identifying those key technologies and relevant market trends that are aligned with the objectives of the AccesS project and geared towards improving accessibility and sustainability in smart cities and smart built spaces, with a focus on the design and development of inclusive and accessible environments that accommodate the diverse needs of people with various disabilities and elderly people with reduced mobility.
